

Ring Size Finder

To get your most accurate ring size:

- Measure your finger in warm temperatures at the end of the day.
- If your knuckle is a lot larger than the base of your finger, use Method B below. Measure both the base of your finger and your knuckle and select a size in between the two.

Tips if you're buying the ring as a surprise:

- Contact the intended recipient's best friend or mother and ask them about their ring size.
- Borrow one of your intended recipient's rings that fits the finger you intend your gift ring to fit and use Method A below.

Other tips and information:

- If purchasing a wide band, move up a size from your measurement, for comfort's sake.
- All sizes listed on GreaterGood are standard American sizes.
- The average woman's ring size is about 6. The average man's ring size is about 10.
- Your ring size will be about half a size larger on your primary hand (i.e., the hand you write with).

Method A

- Place a ring that fits you over the circle, making sure the inside of the ring lines up with the outside of the circle.
- If you are between sizes, order the larger size.

Method B

- Print and cut out ring sizer below. Cut small slit that is marked with an arrow.
- Place ring sizer comfortably around finger by slipping pointed end through the slit, numbers facing out.
- Secure the ring sizer by pulling the pointed end snugly around your finger like a belt, tight but can still move it around. Be sure it's not too tight or too loose.
- Your approximate ring size should be the number that appears where it says 'Read Size Here'

PRINTING INSTRUCTIONS

For accurate ring-size results, you must make sure that you **do not** have "Shrink oversized pages to fit paper size" or "Expand small pages to paper size" selected in the Print dialog box.
